## INSURGENTS NOW IN UNRULY MOOD

Will Not Surrender Arms  
Until Cuban Volunteers  
are Disbanded.

## POWER OF MAGOON TO BE ABSOLUTE

Necessity of Presence of American  
Troops Becoming Daily  
More Evident—Taft Will  
Likely Yield to the  
Demands of  
Rebels.

HAVANA, October 6.—The first contingent of United States troops arrived here late last night on board the transport Sumner. The ship will go to the Havana central wharf early tomorrow morning, and the 950 soldiers, with their equipment, will be transported by street cars to Camp Columbia, under the direction of Quartermaster Major Baker. There they will camp in tents until the preparation of the barracks is completed. General Cowles reports an uneventful trip.

HAVANA, October 6.—The disarmament of the rebels cannot be successfully completed until the volunteers organized by the Cuban government have been paid and disbanded. That is the position that has been taken by various rebel commanders scattered throughout the island which are strongly inclined to remain under arms until the volunteer organizations disappear. This is the only important factor now regarding the otherwise fairly rapid dispatch of the rebel forces.

The disposition of the provisional government is to yield to this demand. The volunteers would have been motivated out of service money but for the necessity to have some force in attendance for the purpose of guarding the towns. It is realized, however, that in many sections the presence of volunteers and the militia only acts as an irritant to the surrendering rebels. The conduct of the volunteers to this date appears to be not always exemplary, and would seem to be a hindrance to the presence of a sufficient force of United States soldiers and natives to disarm every town where the volunteers can be readily disarmed and disbanded by capable and well-disciplined American soldiers.

Until the towns are thus quietened, it is not believed that pacification will be complete. While the provisional government is not insistent on getting in all or even a majority of the guns held by the rebels, it is believed that more of these weapons would be surrendered had the presence of the volunteers. This attitude is apparent at all points where the revolutionaries are in considerable force, but it is particularly so in Southern Santa Clara, where the progress of disarmament has been very poor and where the number of guns surrendered was ridiculously small as compared with the number of guns destroyed.

### Violates His Word.

Of 2,000 rebels visited in the Pinar del Rio district five days preceding today, only 100 surrendered their arms. The disarmament commission spent much time in endeavoring to find various bands which were dispersed, but it is evident that many of the men have not returned to their homes as yet and that numbers of them are concealing their weapons. All the men kept the horses in their possession whether the animals were theirs originally or not. General Guzman's big force is now completely disbanded and the only visible weapons in the possession of the men are machetes.

They assert that these are the only weapons they ever had. It is estimated that from the 3,000 or 4,000 rebels in the province of Santa Clara, no more than a thousand guns will be recovered. The commission fears that it will require another week to get all the arms that will be surrendered and complete the disarmament of the insurgents.

At Havana, in the province of Pinar del Rio, a force of 400 insurgents, commanded by General General Reynoso, refused to surrender their arms while the volunteers were permitted to retain theirs. General Hernandez wired General Funston that the volunteers must be disbanded before the could succeed in disarming the rebels.

This attitude on the part of the insurgents is directly contrary to the pledge General Guzman made to Governor Taft. At the outset of the disarmament movement, General Guzman promised that he would lay down his arms, making the stipulation that the government troops should do likewise, relying wholly on Governor Taft's promise of protection. This attitude to pacification tends more than any other factor to complete the disarmament of the rebels.

### Has Plenary Power.

WASHINGTON, D. C., October 6.—Governor Charles E. Magoon, who, with General H. M. Taft and Major Bacon, left Washington today for Havana, will exercise in Cuba all the power which was vested in General Leonard Wood when he ruled Cuba under the title of Military Governor. Governor Magoon will be known as Provisional Governor, but his power will be plenary and subject only to the orders of the President and the Secretary of War. Cuba will have the semblance of an autonomous government, and the United States will continue to be represented in Havana by an American minister, and the consuls will continue at their posts. Cuba will be represented in Washington by a minister, and the consuls are expected to remain at their posts.

It is officially stated that there has been and will be no subversion of the Cuban Constitution. By incorporating the Platt amendment into the Constitution, Cuba provided for just such an emergency as has arisen, and for the United States to intervene and restore order; consequently, it is said, Cuba is still to be governed by constitutional means and by machinery such as is provided in any community where martial law is necessary. During the occupancy of Cuba it is not expected that the Cuban Congress will exercise any power. In fact, there is no method by which it can be assembled unless Governor Magoon should deem such action necessary to prepare the way for another election.

## FAIR GATES WILL SWING TUESDAY

Preparations Being Completed Amid Scenes of  
Great Activity.

## CATTLE EXHIBITS TO BE SPLENDID

Entries Have Been Remarkably  
Large and This Display Will  
Be Feature of Great Show.  
Many Beautiful Horses  
Stabled on the  
Grounds.

With sunny skies and crisp, bright, bracing October weather—for all of which the prospect is now excellent—the complete success of the first annual exhibition of the Virginia State Fair Association is already assured beyond doubt. As an exhibition of the products of field, farm and factory it will be thoroughly representative of this and other States, and as a great public entertainment it will attract thousands of visitors from all sections of this and other States.

The Fair Grounds are now complete and ready for the installation of the exhibits, the erection of the booths and stands, and the establishment of the varied entertainment features provided for the five days' exhibition. All sorts of shows and diversions, save the bad sort, have been engaged, and in whatever direction one turns next Tuesday he will find something to claim his attention and enlist his interest.

The various departments of the exhibition are in capable hands and have been so well managed that the success of each is assured. Mr. C. W. Smith has general charge of the fair, and is also looking after the speed trials department. Mr. S. S. Stansbury has charge of the poultry department and Mr. A. M. Soule of the Virginia Experiment Station, at Blacksburg, is in charge of the exhibits of cattle, which will be the feature of the fair, and from the races, which are always the feature in point of public interest. Every other department is provided over by experts in their several lines.

### From Many States.

The fair is in no sense limited to this State so far as the exhibits are concerned, these coming from all parts of the United States. The Western and Middle Western States will contribute their bovine supremacy to the great cattle exhibit, hundreds of head coming here from Illinois, Indiana, Ohio, Kentucky and other States. In addition to those shown by Virginia breeders, with a total of nearly 100 head of cattle, the success of the exhibition in the 175 classes is now beyond doubt. The sheep and swine exhibits are hardly second to those of the cattle, and the classes for horses are sufficiently well-filled to guarantee a show well worthy of admiration. There are 14 classes for horses, ponies and asses, embracing animals for every variety of usage.

Already not a few race horses entered in the trotting, running or pacing classes have arrived here and are stabled on the grounds awaiting the opening of the fair. Barney Denworth, of Kingston, N. Y., is here already with a fine bunch of runners, trotters and exhibition horses, including Irish, Crown Prince, Minnie Blumber and Lady K. trotters; Sparta, Prince Paul, Clifton Boy and Clifton Girl, runners; and King Paul, Free Lance and Major McKinley, exhibition horses.

James M. McHenryman, of Cockeysville, Md., is here with a stable of eleven head of Guernsey cattle, most of which have won prizes at the great fairs in the North.

### All Classes Full.

The complete list of entries for the races shows that all the classes are full. From now until Tuesday carloads of cattle, horses, sheep and swine will be pouring in daily. The entries indicate that even the additional stalls and stables will hardly be sufficient to accommodate the animals entered.

In the cattle exhibit there are fourteen classes for Virginia Shorthorn, Jersey, Red Polled, Holstein-Friesian, Ayrshire, Jersey, Guernsey, Dutch-belted and Galloway breeds.

In the swine department there are eight classes each for Berkshire, Poland China, Chester White, Duro-Jersey Red, Large White Yorkshire and other breeds.

In the 58 classes in the poultry department there are more than a thousand entries.

## BODIES OF ALL VICTIMS HAVE BEEN RECOVERED

Twenty Men Believed to Have  
Been Lost Have Now  
Reported.

ROANOKE, VA., October 6.—The Associated Press to-night received the following telegram from the Pocahontas Coaleries Company, dated Pocahontas:

"We will be glad to have you announce that we have now recovered the bodies of all the employees lost in the West mine disaster of October 3d, the total being thirty-five. Twenty men who were at first believed to have been lost have since reported in person. The property loss is found to be much less than was at first anticipated. The work of clearing the mine of debris and wreckage is being pushed. The ventilation of the mine is perfect, and we hope to resume work in full during the coming week. The other two mines, which were not affected by the disaster, will resume work on next Monday. The cause of the explosion is as yet unknown."

## SCENES AT FAIR GROUNDS AND SOME FAMOUS RACERS.

## FALL MEETING OF UNIVERSITY BOARD

Dr. Theodore Hough Is Elected  
to Fill the Chair of  
Physiology.

PUBLIC HALL NAMED AGAIN  
Committee Appointed to Consider  
Question of New Dormitories.

(Special to The Times-Dispatch.)  
CHARLOTTESVILLE, VA., October 6.—The annual fall meeting of the Board of Visitors of the University of Virginia was held at that institution this afternoon, when much routine business was transacted.

Dr. Theodore Hough, Professor of Biology and Director of the School of Science in Simmons College, Boston, was elected to fill the chair of physiology, made vacant by the division of the chairs of physiology and therapeutics, formerly held by Dr. Paul B. Barringer. Under the new arrangement Dr. Barringer has the subjects of therapeutics and the eye, ear and throat, while Dr. Hough will teach physiology. Although Dr. Hough will not enter upon his new duties until September of next year, he will pay frequent visits to the University during the present session to supervise the fitting of equipment of the new physiological laboratory.

### Native of Virginia.

Dr. Hough is a native of Virginia, having been born in Front Royal in 1867. He taught elementary and secondary education in public and private schools of Virginia and Maryland; was instructor in McDonough School, Baltimore, 1888-89; graduate student of physiology, zoology and chemistry, Johns Hopkins, 1889-91; junior demonstrator of histology and physiology, 1890-92; fellow in physiology, 1892-93; Ph. D. 1893; instructor and assistant professor of biology, Massachusetts Institute of Technology, 1893-1895; in charge of instruction in physiology, Tufts College Medical School, Boston, 1895-98; instructor in physiology and personal hygiene, Boston Normal School of Gymnastics, 1898. He is a member of the American Physiological Society, American Society of Naturalists, Boston Society of Medical Sciences, Boston Society of Natural History, fellow of the American Association for the Advancement of Science, and fellow of the American Academy of Arts and Sciences. He is the author of number of valuable publications on physiological subjects.

Provision was made for the election of an instructor in physiological chemistry, who will assume his duties during the spring term.

In recognition of the eminent and devoted services of Joseph Carrington Cabell, friend and ally of Thomas Jefferson in the organization of the University of Virginia, the academic building, now known as the public hall, will be hereafter styled "Cabell Hall."

A committee was appointed to consider and report at an early day on the question of providing new dormitories for the students out of the endowment received, both as a means of providing needed student quarters and as a safe and valuable investment.

The attendance of students to date was reported to be 75, with the outlook for a total of 80 for the session pretty well assured.

## CRAZED BY FEAR, PLOTTING TO MURDER SYRIAN LEPER

People Highly Wrought Up Over Continued Stay of Man  
in West Virginia—Governor will Order Out  
Troops if Necessary.

BALTIMORE, MD., October 6.—A special dispatch to the American from Charleston, W. Va., says that, crazed by fear due to his continued stay there, the people of Pickens, W. Va., are plotting to murder George Haschid, the Syrian leper, who was recently returned to West Virginia from Baltimore, and who has since been at Pickens awaiting removal to his home in Syria. Pickens is a small place about thirty miles from Elkins, Dr. J. L. Cunningham, according to the dispatch, has informed Governor Dawson that if Haschid's life is to be saved, he must be removed from Pickens at once, and the Governor has notified Prosecuting Attorney C. W. Harding and Sheriff McDowell, at Elkins, to protect the Syrian at all hazards, for which purpose State troops are to be sent to Pickens if necessary.

## PRIVATE POLICE FOR PROTECTION

Wealthy Families Will Maintain  
Force to Drive Highwaymen  
and Kidnappers Off.

ATTEMPT TO SEIZE HEIRESS  
Man Dragged Child From Pony  
at Dusk and Demanded  
Money.

(Special to The Times-Dispatch.)  
NEW YORK, October 6.—The attempt of two men in a buggy to kidnap Eugene Marie Ladsburg, the fourteen-year-old daughter of Mrs. Adolf Ladsburg, on a lonely road on Hempstead Plains, L. I., led Mrs. Ladsburg to say today that she proposed to establish her own police force, and that with other wealthy residents they would maintain protection for their families.

"The attack on my daughter," she said, "is the fifth such incident that has happened to us in the last two months. Among the families so attacked are the James Burdens and the Koenigs. In those instances, as in this, no one knows positively that the outline intended kidnapping, but they made the attack, and viciously, too. In my mind, this is the gang that has been blowing safes and robbing houses all around us. I have called for the police at Westbury, Mineola and Hempstead, but I cannot get hold of any of them. I have engaged the Pinkertons."

The little girl was snatched and dragged from her horse by a highwayman while riding her prize-winning pony through a lonely stretch of woods last night near her mother's Long Island home, The Oaks, in Hempstead Plains. She was rescued, much frightened and somewhat hurt, by her pony Malloy, who was in competition with those of Harry Payne Whitney and others, and had won a blue ribbon. She was so elated over her success that when the start home was made she elected to ride the pony.

Mrs. Ladsburg, a skillful horsewoman (Continued on Sixth Page.)

## GRAND DUKE TO WED PRINCESS

Niece of King Edward to Become  
Bride of Brother of Czar  
of Russia.

POPULAR, YOUNG AND PRETTY  
Betrothal Will Be Formally An-  
nounced in London Within  
Next Few Days.

ST. PETERSBURG, October 6.—A marriage has been arranged between the Grand Duke Michael, only brother of Emperor Nicholas, and Princess Patricia of Connaught, niece of King Edward. The betrothal occurred during the Grand Duke's recent trip to Copenhagen and Scotland, from which he has just returned.

From Copenhagen Grand Duke Michael went directly to join the Imperial party in Finnish waters and receive his betrothed's formal approval of the engagement. He was heartily congratulated by all the members of the Imperial family. He will leave Russia in a day or two for London, where, after securing the consent of King Edward, the betrothal will be formally announced. According to the Russian custom it will be necessary for Princess Patricia to embrace the orthodox Russian faith, but the difference from the Anglican church is so small as to present no insuperable objections.

LONDON, October 6.—Princess Patricia of Connaught, whose engagement to Grand Duke Michael is announced from St. Petersburg, is one of the most popular and probably the best looking of the younger generation of the British princely family. She is in her twenty-first year.

The Princess is of a bright, happy disposition. During the past two years she has been mixing in society and has made herself a great favorite. She is an enthusiastic sportswoman, is especially fond of hunting and fishing, and has killed many nation, both in Ireland and Scotland.

### Many Families Homeless.

ALBANY, N. Y., October 6.—Twenty-four dwellings were destroyed and twenty-seven families rendered practically homeless, with a loss of about \$25,000, in a spectacular and disastrous fire which visited Rotterdam, just across the Hudson River.

## NORTH CAROLINA NOW RIDES WAVES

Most Powerful Battleship in the  
World Successfully Launched  
at Newport News.

COL. CABELL MAKES ADDRESS  
Bottle of Old Wine Encased in a  
Silver Net Broken on Her  
Prow.

(Special to The Times-Dispatch.)  
NEWPORT NEWS, VA., October 6.—In the presence of 10,000 people, many of them from the Old North State, the new armored cruiser North Carolina, the heaviest and most powerful cruiser in the world, was successfully launched at the plant of the Newport News Shipbuilding and Dry Dock Company this morning at 11:30 o'clock. The great vessel went off the ways as swiftly and gracefully as ever did a 500-ton steamer, and floated lightly out upon the waters of the James and the shouts of the multitudes, screams of steam whistles and the almost drowned strains of "The Old North State."

When the ship was safely afloat and had been towed to a pier, where the work of completing her will begin at once, the christening party and other especially invited guests were driven to Hotel Warwick to attend the post-launching banquet, tendered according to custom, to the fair sponsor by the Newport News Shipbuilding and Dry Dock Company.

Tar-Heels Witness Launching.  
Excursions from Asheville and Raleigh brought several hundred native "Tar-Heels" to witness the launching of the new ship.

(Continued on Seventh Page.)

## NO FURTHER RACING AT GARDEN CITY COURSE

Impossible to Keep Spectators in  
Check and Avoid Ac-  
cidents.

GARDEN CITY, L. I., October 6.—After the race for the Vanderbilt cup today, the racing board of the American Automobile Association held a meeting here and decided that no more races should be held under the auspices of the association over the course used today.

Chairman Thompson said the board had come to this decision because it had been found impossible to keep the crowds of spectators in check and to avoid accidents such as occurred today, when several persons were injured, and Elliot F. Stewart's car killed a man.

For these reasons it was deemed inadvisable to hold further racing on the Nassau county course. Mr. Thompson said that in the future, if similar accidents should be decided upon, they would be held at some place further down the island. He thought it possible that private property might be purchased for the establishment of a course. This would be fenced in along its entire length, and any outsider who ventured on the course would be guilty of trespass.

## WHITES ENRAGED BY CARNIVAL OF CRIME IN SOUTH

Negro Brutes Insult Women,  
Attack Others,  
and Shoot Men.

## JAIL IN MACON STORMED BY MOB

War of Extermination Coming  
Unless Something Is Done,  
Tillman Says.

## MOBILE BUSINESS MEN LYNCH TWO NEGROES

Mob Now Pursuing Others in  
Arkansas—Indiana Negro  
Killed Man Who Re-  
fused to Give Him  
Sandwich With-  
out Pay.

A RACE riot at the Fair Grounds in Macon, Ga., last night, followed the shooting of two white men by a negro, whose offensive conduct toward a young ladies had led to a remonstrance. A general stampede ensued. A mob is now storming the jail in which the negro is confined.

A masked and thoroughly armed mob, said to be made up entirely of business men of Mobile, acting after careful consideration of the numerous crimes against white women in the Southern city, boarded a train near Pritchard's Station, covered the sheriff with revolvers, and removed two negroes, whom they strung up to a tree near the station. No shooting was permitted. The work was very quickly and quietly done. Leaders of the mob claimed that if the prisoners were carried into Mobile and tried under military protection, bloodshed would result. To prevent this, it was determined to resort to a summary execution. People fled from Mobile to view the scene of the hanging, and a bonfire was suggested. Widespread judgment prevailed.

A double lynching with a score in Arkansas if a mob now on the path succeeds in capturing the two Columbian brothers, negro undertakers, who shot a policeman and killed his son. The negroes were barricaded in their store until the place was dynamited. Both then escaped. In Indiana a negro killed the proprietor of a street lunch wagon, who refused to give him a sandwich for nothing. Two attempts were made by a mob to take the negro from the officers, but the prisoner was spirited away in a buggy. A negro was lynched in Mississippi yesterday for an attempted criminal assault upon a white woman. Several other cases of trouble with negroes are reported in the dispatches from different points.

In a speech delivered in Augusta, Ga., last night, Senator Tillman declared that a bloody war of extermination would ensue unless something was done to check the carnival of crime. In an address to the negroes of the country, Bishop Walters, president of the National Afro-American Council, called on the race to "rise in their own defense."

## MOB IS STORMING PRISON IN MACON

MACON, GA., October 7.—2 A. M.—The mob at the jail is becoming less demonstrative, as the negro they seek has been placed in the barracks, which is well guarded. This fact becoming known had a quieting effect.

MACON, GA., October 6.—About 10 o'clock to-night Charles Adams and William Solomon, prominent young white men, were shot by a negro and seriously wounded at the fair grounds. White shows were giving night performances. The negro was arrested and a crowd is now attacking the jail where he is confined.

The Mobway was thronged with hundreds of young people. Adams and Solomon were escorting two young women, when a negro, in a very offensive manner, forced his way between the couples, separating them. A remonstrance from the young men led to an encounter. The negro was whipped with a revolver and opened fire on Adams and Solomon, both receiving wounds in the stomach. The negro was promptly arrested and placed in jail.

A general stampede ensued among blacks and whites as friends of the wounded men made threats of vengeance. Young women scrambled into cars and drove away. A mob of about 100 men, some armed with shotguns, gathered at the jail, which is now being stormed. It is said the outer door has been broken down. Strenuous efforts are being made to prevent violence. The Mayor exercises all the power at his command to restore order.

During the excitement at the park, Emma Brunner, a nurse, fired a 36-caliber pistol at Luther Brunner, colored, the jail guard, through the heart. This last shooting was the result of a quarrel just before the tragedy at the park.

## NEGROES HANGED BY MOBILE MOB

MOBILE, ALA., October 6.—The crimes committed upon Ena May Fowler, Lillian May Savell, Ruth Kossman and attempts on others whose names are not given, were avenged by a party of forty-five men this afternoon at 12:30 o'clock in a lonely place just off the Hot Road in the neighborhood of Pritchard's Station.

The leaders ordered the men, who were all armed with revolvers, shot guns and knives, not to fire a shot, and the orders
